Re: Project Number: 06-01908 -- Stewart Park Renovation Update

Congratulations! The National Park Service (NPS) has completed its NEPA and Section 106 review of your project and you are now able to break ground on your project.

Please note that **there are Special Award Conditions that are still attached to this grant**. These and other requirements are listed in your Project's Action plan which was sent to you previously by Katherine Vallaire and Kristen Way. Please review the following items carefully and please contact us if you have any questions about any of them:

Upon the installation of the interpretive signage, OGALS must be immediately notified in
order to fulfill requirements pursuant to Section 106 of the National Historic Preservation
Act (NHPA) of 1966 (54 U.S.C.306108).

Inadvertent Discovery: If human remains, artifacts, or other items of cultural
significance are discovered during the course of the project, all project activities and
work must cease immediately, and OGALS must be notified immediately. OGALS will
coordinate notification of necessary parties. In the event of the discovery of human
remains, relevant local authorities must be contacted and all local, state, and federal
laws followed. Please reach out to Katherine Vallaire at
