

Staff Report

TO: Honorable Mayor and Members of the City Council
FROM: Doug Story, Community Services Director
BY: Brittany Navas, Grants Analyst
DATE: July 21, 2026
SUBJECT: Grant Agreement for the Outdoor Recreation Legacy Program (ORLP) - Stewart Park

Description: Approval of a grant agreement with the California Department of Parks and Recreation for Phase II improvements at Stewart Park.

Motion:

If the City Council determines that staff's recommendation is appropriate, the following motion is provided:

I move to approve the Grant Contract with the California Department of Parks and Recreation for the Stewart Park Renovation Project, Project No. 06-01908, in an amount not to exceed \$2,508,941.00, and authorize the City Manager, or designee, to execute the agreement and related documents and amendments.

Recommendation:

Staff recommends that the City Council approve the grant agreement for Phase II of the Stewart Park Renovation Project, administered under Project P-10, and authorize execution of the agreement and related grant documents. The agreement provides up to \$2,508,941 in reimbursable funding, requiring the City to incur eligible costs before seeking reimbursement, and the required local match has already been budgeted, with \$3.1 million allocated in Project 24-01. Approving the agreement will allow the City to formally accept the grant terms and proceed with implementation of planned Phase II improvements now that federal review has been completed. Phase II park improvements include a new parkour playground, amphitheater, shaded picnic areas,

pickleball amenities, and renovations to the basketball courts and skate park.

Discussion:

The attached agreement formalizes grant funding for Phase II of the Stewart Park Renovation Project through the California Department of Parks and Recreation. Phase II improvements include construction of a new nature-themed parkour playground, amphitheater with stage, 12 permanently affixed retractable pickleball nets, two shaded group picnic areas with grill, and a multipurpose field, as well as renovation of the basketball courts and skate park, with associated site furnishings and landscaping.

The grant provides reimbursement in an amount up to \$2,508,941.00, at a reimbursement rate of 50 percent of eligible project costs, or 50 percent of the total project cost, whichever is less. The grant performance period runs from August 13, 2025 through August 12, 2030.

This is a reimbursable grant, meaning the City must incur eligible costs and then submit those costs for reimbursement in accordance with grant requirements. The agreement also includes additional grant conditions, including installation of interpretive signage prior to project closeout and procedures for inadvertent discovery of human remains, artifacts, or other items of cultural significance during construction.

On June 2, 2026, the City received notice that the National Park Service had completed its NEPA and Section 106 review of the project and that the project is now able to break ground, subject to the remaining special award conditions and contract requirements. Approval of this agreement will allow the City to formally accept the grant terms and move forward with implementation and reimbursement activities for Phase II.

Fiscal Impact:

The Stewart Park Renovation Project is being administered under Project P-10. This agreement provides up to \$2,508,941.00 in reimbursable grant funding for eligible Phase II project costs. Because the grant is reimbursement-based, the City must first incur eligible expenditures and then submit those costs for reimbursement. Funding to satisfy the required local match has already been allocated, with \$3.1 million previously budgeted for that purpose within Project 24-01.

Alternatives:

Council may elect not to approve.
